Allowable Subject Matter

2. Claims 1-46 are allowed.

4. The following is an examiner's statement of reasons for allowance: The prior art of the record fails to anticipate or fairly suggest the newly added limitations, wherein all elements in the image are initially displayed at an optical focus level that is substantially the same for all elements, thereby simulating an unnatural or artificial viewing condition, since elements viewed at different

Art Unit: 2621

distances from the viewer would naturally appear at different focus levels, and displaying an image having an apparent focus plane that tracks the accommodation of the viewer by adding blurring to other elements in the image in proportion to their distance in depth from the viewpoint of the viewer, so as the accommodation of the viewer watching the large depth of focus display changes to focus the eye of the viewer at a different viewing distance, the image that is displayed is changed to more accurately visually convey depth in the image that is displayed, based on the accommodation that was determined and thereby simulating a natural viewing condition, along with other limitations as specified in independent claims 1 and 20, and newly added claims 45 and 46 are allowed in view of applicant's remarks presented on 5/12/2008.

Claims 2-19, 21-44 are allowed with respect to dependency to allowable independent claims 1 and 20.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
